I was born at an early age...after that, not much to report!

I'm from Celina, but moved away to Colorado long, long ago...and then, for some strange reason...I moved back - I know, that's what I thought!

As far as likes...I love disc golf...basically golf with a Frisbee....I also love music..which makes sense...since this is RADIO!

Other than that...I really love women...and it just so happens I am fresh out; any takers?
